**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a method for cleaning silica.

Group II, claim(s) 13-19, drawn to a device for cleaning silica.

Group III, claim(s) 21-25, drawn to a composition of matter.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I contains patentably distinct special technical features of a cleaning process, such as the treatment gas having a temperature of at least 1000 degrees and a flow velocity of 10 cm/s, none of which correspond Groups II or III. Group II contains patentably distinct special technical features of a device for cleaning, such as a plurality of nozzle openings being distributed laterally of the center axis, none of which correspond to either of Groups I or III. Group III contains patentably distinct special technical features of a composition of matter, such as natural quartz, and less than 20, 30, or 50 ppb of certain ingredients, none of which correspond to Groups I or II.

2. A telephone call was made to Andrew Tiajolloff on 9/29/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward M. Johnson whose telephone number is 703-305-0216. The examiner can normally be reached on M-F 6:30-4:00.
